5005 5W-40

PRODUCT DESCRIPTION

Xtreme 5005 5W-40 is a premium quality multi-grade lubricant blended with synthetic base oils and selected additives, among which the friction modifier.
The synthetic base oil gives excellent high temperature performance and protection. The low viscosity helps fuel economy and emissions reduction. The friction modifier maximizes power output by reducing internal friction.

Xtreme 5005 5W-40 shows the following main benefits:

- Excellent low temperature fluidity that gives fast oil flow on start-up,
- high oxidation resistance which reduces deposit formation,
- good detergency/dispersion properties giving cleaner engines and protection against sludge,
- enhanced engine protection against wear.

APPLICATIONS

Xtreme 5005 5W-40 is recommended for modern gasoline and indirect-injection diesel engines, both naturally aspirated and turbocharged, installed in passenger cars and light commercial vehicles.
Formulated to provide outstanding protection across a wide range of engine speeds, operating conditions, and ambient temperatures, it delivers reliable performance under both normal and severe driving conditions.
Xtreme 5005 5W-40 provides a high level of engine protection and consistent performance. It is also suitable for extended oil drain intervals where specified and approved by the engine manufacturer.
